**Dear Dr Fayadh**

**Thank you very much for sending me a copy of the first volume of your new journal. I wish you every success in your venture. I shall be glad to be of help in any way, but I regret to say that I do not have a paper in preparation at the moment to send to you. If you would like to send me further copies as they are issued I will pass them on to The Royal society of medicine for inclusion in their library.**

**With kind regards**

**Yours sincerely**
