
EDITORIAL

From The Editors To All Iraqi Colleagues

Iraqi journal for gastroenterology and hepatology publishes original, peer-reviewed articles on endoscopic procedures used in the study, diagnosis, and treatment of digestive diseases. Articles report on outcomes research, prospective studies, and controlled trials of new endoscopic instruments and treatment methods. .

Iraqi journal for gastroenterology and hepatology has become the national forum for the newest developments in the specialty, bringing readers challenging reports from leading authorities throughout the country. **Aim:** Iraqi journal for gastroenterology and hepatology will be the preeminent advocate for the science and practice of gastroenterology and hepatology in the country. We will provide the highest quality gastroenterology and hepatology information at the point of care and at the cutting edge of science. We will continue to seek out and publish the best original articles, editorials and reviews as well as exciting new techniques, and society guidelines. **Scope:** Iraqi journal for gastroenterology and hepatology is truly integrated into nearly all aspects of gastroenterology and hepatology as well as diseases and organs accessed via the GI tract. As such, we will review and publish articles not just studies directly involving endoscopy, but also conditions broadly relevant to the gastroenterology and hepatology community where endoscopy may play a role including inflammatory bowel disease, functional GI diseases and obesity.

GOD BLESS YOU ALL
